

The background of the entire slide is a dark, high-contrast photograph of various industrial drilling tools, including drill bits and long rods, arranged on a light surface. The tools are mostly black and metallic, with some showing signs of wear. A thin, light-colored diagonal line runs from the top right corner towards the center of the image. The Gonar logo is positioned in the upper left corner, consisting of the word 'gonar' in a bold, white, sans-serif font where the letters are interconnected.

gonar

WE KNOW THE DRILL.

50 years of experience in manufacturing drilling consumables for applications in underground, open-pit mining, quarrying and geotechnical places Gonar in leading position among other peers in industry segment

GONAR

– leading manufacturer of drilling consumables with global presence

We produce over 3000 different tools for various needs in mining, quarrying, construction and geotechnical applications.
